Hi Stuart,

I just finished 98 vs 95 % revisions to the FIP. Once you have the cite, please add it to the "3-2-16" version on the Sharepoint. It looks like we have multiple areas where we reference the manufacturer specs, so we will likely need to footnote each of those references. Please let me know once you have completed the cite/footnote revisions or if you have any questions. Thanks,
Dee

- Talk with Chuck Buckler on Canadian notification applicability for permits <100km from border
- Review Southern Ute's permit for BP Iron Horse CDP
- Work on addressing CHS Farmers Elevator comments

Thanks,
